

**Evaero, Inc. partners with the Arizona Division of Occupational Safety and Health.**

TUCSON, Arizona, December 11, 2011 - Evaero partners with the Arizona Division of Occupational Safety and Health (ADOSH) to strengthen Evaero's safety and health program and increase awareness with regards to health and safety issues.

Consistent with ADOSH's long-range efforts to develop a business/labor/government partnership approach to occupational safety, the partnering agreement with Evaero is expected to build on and improve Evaero's existing safety and health management system for the benefit of its most valuable resource: its employees.

Evaero Inc. ([www.evaero.com](http://www.evaero.com)), an ISO/AS registered company, has served the aerospace industry for nearly 30 years with high-precision machined components and assemblies.
